

## PREPARING FOR BIG DAY ON MONDAY

Opening of the Ball Season Will Be a Big Event—Grounds Are in Apple Pie Order.

Connellsville's defeat at the hands of Gratton yesterday did not dampen the ardor of the fans here who are busy arranging for a rousing reception for the boys upon their return here Monday. The town will literally take a half holiday that day and flock to the ball ground. The movement to have the stores closed for two hours Monday afternoon has met with considerable favor and it is expected that by this afternoon the promises of most of the merchants will have been obtained. The clerks in the stores are especially interested in the movement as they are anxious to witness the opening game.

The Tenth Regiment Band will turn out in full force to make the welcome right with martial airs. Burgess Evans will toss the first ball across the park and then the game will be on.

The ball park is in better shape than ever before. Thanks to the efforts of Connelleville William McCormick, Burgess Evans, Walter and S. P. Hay, John Knox and Nick Trump, all of whom donated teams for this work, the infield and outfield are in excellent condition. A week's work has been put on the park and the results obtained show this. New netting has been put up in front of the grandstand for protection against foul balls.

Fans from all parts of the region will flock to Connellsville on Monday as the opening game has been widely advertised. The borough officials of a score of towns have been invited to attend and many have signified their intention of being on hand. The Connellsville officials were not forgotten, either, and will root for Sweeney's boys.

The Cokers will up their present trip on Sunday at Clarksburg and will be in Connellsville all next week, playing Fairmount, Gratton and Clarksburg in order. They are away from home most of this month, making another trip to West Virginia upon completing this series here.

# ARE YOU THINKING OF BUYING CARPETS OR RUGS?

— WHATEVER YOU DO, don't close any deal for Carpets or Rugs until you have seen our Carpet and Rug display and have learned of the special features in this department which no other store can offer.

IN THE FIRST PLACE, we sell the finest lot of high grade Carpets and Rugs that can be secured anywhere—but our prices are so extremely reasonable that you actually pay less for good grades here than you would pay for really inferior qualities.

IN THE SECOND PLACE, we use a special grade of carpet lining—not the cheap, inferior brown lining which tears to pieces after six months of wear. Sounds little, but it's big in importance.

IN THE THIRD PLACE, three expert men devote all their time to this department—expert in cutting, sewing and laying carpets in the very best and most correct manner. This is tremendously important, for your carpet must be cut and laid correctly or it will not stand the hard usage.

AND DON'T FORGET this additional fact:—We are in the business to stay. We occupy our own building. Every article sold to you is guaranteed and if anything ever goes wrong, it will be made right. It pays to trade at a reliable house—and especially when that house offers you better goods, better treatment and better values than you can secure any other place. We mark our prices in plain figures and the price that you find on the tag is the one price that everyone pays, whether on cash or credit basis.

## FOURTH OF JULY IN SCOTSDALE.

**Council Sets Its Approval on  
Plan for Celebrating  
the Day.**

**VOTES TO GIVE \$100 DONATION**

**Borough To Codify Its Ordinances.**  
East Huntingdon Commencement  
Exercises—Epworth League Elec-  
tion.

SCOTSDALE, May 8.—The Town Council put its stamp of approval on the plan to have a Fourth of July celebration in Scottdale at the special meeting which was held last evening. They also took steps to codify the Borough ordinances, had an informal presentation of the Auditor's report, the reading of the Chief of the District's report, and completed their meeting early. There were present: H. G. Marx, William Butler, J. W. Fitzsimmons, W. H. Brown, M. L. Hennes, J. F. Berry, P. J. O'Connor and President W. H. Sleight. The call for the meeting had been issued the day before and specified particularly the purpose of the session. Mr. Sleight introduced the subject of a celebration here, the first item on the call, by saying that a number of the business men had been talking to him regarding the celebration, and asked that Town Council take the initiative steps in the matter. He passed a motion and Mr. Fitzsimmons asked: "Does that mean put up the money?" President Sleight said that the business people had said nothing about money, but that they wanted a committee appointed to see the business men. Mr. Butler thought it might be well to appoint a temporary committee to meet the business men and find out what they want. Mr. Hennes said that if he thought the celebration was vitally interested wanted Council to start the ball rolling and then if they got in the hole would want Council to help them out. Mr. Brown said that he felt that way, too, and while he thought that the President might with propriety appoint a committee from Council on the matter the latter could hardly well follow their desire and appoint the committee of business men, as the business men suggested. He thought the latter should appoint their own committee.

Mr. Berry remarked that the Council might signify that it would appropriate no money for the affair and then if the business men thought they could make the celebration a success with this help they could go ahead. Mr. Marx said that he thought that the Borough could profitably put up \$75 or \$100 and then they would lose nothing if they should license the fair for the day and thus get the money back. He said he made this suggestion to get the matter going. The other Councilmen and Burgess R. F. Ellis who was present did not think the fair business should be looked upon as an offsetting revenue. Mr. Marx's suggestion further that the Borough might give a certain proportion of the business men a certain amount to add to the donation. Mr. Butler said that he thought the celebration would cost at least \$500 and that the merchants would be the chief beneficiaries. Mr. Berry then made a motion seconded by Mr. Hennes that the Town Council endorse the plan to hold a Fourth of July celebration and that the Borough will give \$100 towards the expenses of such a celebration if the town at large raises not less than \$400. The motion carried unanimously.

Mr. O'Connor came in at this time, and added his opinion that the business men appoint their own committees in the matter. The appointment of a member of the Board of Health came up and President Sleight announced that he would resign. J. J. Murphy to succeed himself. The Council voted its unanimous approval of the naming of a most active and efficient member.

The ordinances came in for a little discussion, and it was the opinion of everyone present that they are in unsatisfactory shape, and have been so for a long time, need to be gone over some of them printed out, others that are conflicting in their provisions with other ordinances made right, and all put in a book that can be easily handled. The ordinances here are like those of nearly every other borough in the Commonwealth, and the necessity of a Borough Code is manifest and would be the matter of any legislator who would put a bill for one through. Borough law in Pennsylvania is one of the most confusing and complex things to be dealt with as every Borough official will agree.

President Sleight appointed as a committee to wrestle with this tangled A. P. Byrne, J. F. Hardy and J. P. Berry and Borough Attorney P. H. Folk. The summary of the Borough Auditor's report was read and a motion that the same be published was passed unanimously. It is the most complete and painstaking audit probably ever made by an auditor of Borough Auditors in either county.

The President informally called the attention of the Fire and Water Committee to the fact that there is something wrong with the throat of the new fire whistle. It needs a gurgle or something of that kind to make its voice right or else its voice is changing since it was brought to Scottdale.

This afternoon the Councilmen will ride in automobiles and view the opening of the baseball season of the City League at Loucks park at 4 o'clock. The French and Pipe Mill teams will do the honors of putting up the first game, and there is a great deal of interest over the game.

**Lyric Theatre.**  
Special attention is directed by the management of the Lyric theatre to the mechanical doll, Martinello, appearing by special arrangement tonight. The general opinion is very evenly divided. Some are sure he is a man, and others are equally sure that a mechanical figure. Those of the latter opinion back their view with the fact that the doll is such as to be incredible as being performed by a mechanical figure. Again those who favor the mechanical figure view back their opinion with the fact that the eyes of the doll never blink, and a wrinkle appears in its face, and that some tests as the sliding of pins in the legs of the doll has no effect on it whatever. Moreover they contend that were it a man it would be impossible to remain a mystery when the figure comes among the audience. Martinello is a query and will likely remain so, unless it be a man he betrays himself.

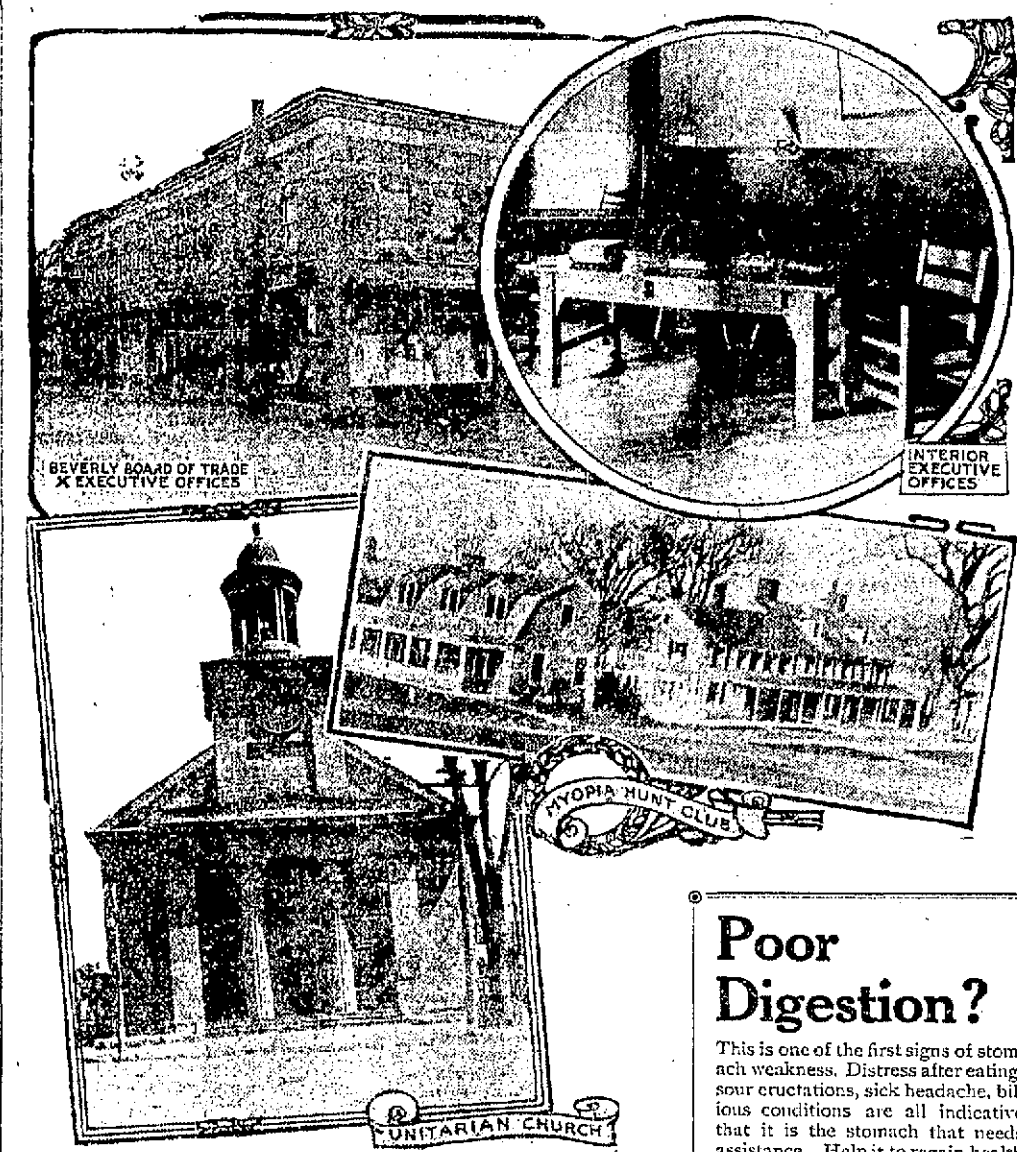

**Real Estate Transfer.**

## SENATE VOTES DINGLEY RATE.

Tariff on Lead Ore Will  
Remain the  
Same.

### BACON ON COST OF TARIFF

Georgia Senator, Continuing the Debate in the Senate, Declares One Dollar of Revenue Collected Costs Consumers Seven Dollars.

Washington, May 8.—The senate voted to fix the duty on lead contained in lead ore at 1 1/2 cents a pound, which is the rate of the Dingley law and of the pending bill as it was passed by the house of representatives.

Seventy-three senators, including all Republicans present, and Senators Hughes of Colorado and McNary of Louisiana, voted in favor of the duty and nineteen Democratic senators voted against it. This particular paragraph has not been opposed by the low-tariff Republicans and the vote was not significant.

Senator Clapp of Minnesota spoke at length in favor of lowering tariff duties and Senator Owen of Oklahoma upheld the constitutionality of an income tax.

Senator Bacon declared that by a conservative estimate for every dollar collected at the custom houses of the country \$7 is placed as a burden upon the people in the way of increased prices of the articles they consume compared to what they would pay if there were no duty. So that to raise \$300,000,000 revenue results in a burden of about \$2,000,000 on the American people. If the benefits of this system be said, could be distributed equally among the people who have to pay the increases there would be greater justice in it, but he contended that the benefits go entirely to the producers of the articles affected.

Mr. Bacon declared that under a tariff for revenue only a duty equal to 25 or 30 per cent ad valorem would be necessary to support the government, which would reduce the \$2,000,000,000 to the extent of about one-fourth.

### SIGNS ARE ENCOURAGING

Dun's Review of Trade Notes Many Favorable Symptoms.

New York, May 8.—Dun's Review of Trade says today:

"With bank clearings outside New York 10 per cent better than last year and 2 1/2 per cent better than 1906, and in New York 2 1/2 per cent better than in 1906 and 1 1/2 per cent better than in 1907; with railroad earnings for the month of April showing a gain of 13.9 per cent over 1908 and only 10.2 per cent decrease as compared with the banner year of 1907; with manufacturing 21.0 per cent larger than last year; with imports much greater than in 1908 and nearly equal to 1907; with a distinct gain in the iron and steel trade in both orders and prices; with a hardening tendency in copper; with works of new construction going rapidly forward; the trade situation seems to afford ample grounds for the prevailing belief that as soon as tariff revision is out of the way the last obstacle to a full restoration of normal industrial and mercantile activity will be removed.

"Notable indeed is the better feeling in iron and steel which is reflected in the fact that all divisions are reported. Recovery is naturally slow following the prolonged period of depression, but there is more than a suggestion of permanence in the steady revival and the broadened demand has not been curtailed by some slight advances in price."

## MOTHERS AND LABOR.

Tomorrow Will Be Observed Throughout the United States

Philadelphia, May 8.—To a Philadelphia woman, Miss Anna Jurvie, belongs the honor of originating the observance throughout the country of the second Sunday in May as "Mother's day," a day set apart for the mothers of the nation. Reports coming here from all sections indicate that the day will be more generally observed tomorrow than it was last year or the year before, when the observance of the day began.

The outward sign of the observance is the wearing of a white carnation in an address to the people of West Virginia asking the people of the state to remember the day Governor Glasscock requested them to wear the white carnation "because its whiteness stands for purity, its form for beauty, its fragrance for love and its lasting qualities for faithfulness—all a true mother's virtues." General Henry M. Nevius, commander-in-chief of the Grand Army of the Republic, and Edgar Allen, Jr., commander-in-chief of the Sons of Veterans, have asked the members of the two organizations to wear the emblem of the day in South Dakota "Mother's day" has been set aside as a state holiday by Governor Vessey. Throughout the country services will be held in the churches in honor of the mothers.

In most of the Presbyterian churches of the country and in some of the churches of other denominations tomorrow will also be observed as "Labor Sunday." The second Sunday in May has been designated by the American Federation of Labor and by the department of church and labor of the Presbyterian church as "Labor Sunday" to be observed by the attendance in church of labor union members and by the discussion from the pulpit of some phase of the labor question.

### CATHEDRAL'S CENTENARY

St. Patrick's, in New York, to Mark Anniversary With Week's Rejoicing

New York, May 8.—For a week beginning tomorrow, old St. Patrick's cathedral, in Mott street, this city, in which many of the most notable events in the history of the Roman Catholic church in this country have taken place, will celebrate its centennial. Church dignitaries from many parts of the United States will assist in the ceremonies marking the anniversary.

The cornerstone of the old cathedral was laid June 9, 1809, by the Rev. Anthony Kohlman, its successor in the beautiful gothic edifice on Fifth avenue.

Perhaps the most conspicuous event in the history of the old building was the investiture of Cardinal McCloskey. He was here ordained a priest, consecrated a bishop, installed archbishop and finally invested a cardinal.

Twice in the history of the cathedral the bishops have been ordained in one day.

### MACHINISTS VOTE TO STRIKE

The primary cause of the action is a notice from the company putting the erecting shops at Mount Clear on piecework basis, though it is said by the men that there are a number of minor causes of dissatisfaction.

## R. R. MAGNATES IN BLAZING CAR.

They Escaped in Negliges From Perilous Situation.

### ONE HAS VERY NARROW ESCAPE

Officials of Pennsylvania Lines, Traveling to Chicago in Special Car Attached to Flyer, Awake to Find Themselves in Burning Coach.

Chicago, May 8.—High officials of the Pennsylvania lines experienced a thrilling escape from the fire which destroyed the special car on which they were traveling from Pittsburgh to Chicago. The officials were first Vice President Joseph Wood, Second Vice President J. J. Turner and Chief Engineer Thomas Rodd.

The Pennsylvania special to which special car No. 7595 was attached, was running rapidly between Harrisburg and Davis Station Ind., when at 6 a. m. the fire was discovered by Mr. Wood. Mr. Wood signalled the train to stop, shouting an alarm to Rogers Turner and Rodd. The latter and Mr. Wood were near the doors and escaped in extreme negliges as the train came to a stop.

Meanwhile Turner, occupying a compartment near the center of the car, aroused by the heat and the shouts, opened the corridor door only to find his exit blocked by flames. He turned to the window and smashed the glass with his fist.

The train, however, was obeying Mr. Wood's signal with prodigious jerks which alarmed the entire passenger list, and presently came to a standstill at a point where the train crew from the outside succeeded in raising the sash and Mr. Turner was assisted to safety.

The crew likewise made salvage of the railroad in the burning car. The car was then shunted onto a siding and left to burn.

The fire is believed to have been due to crossed electric wires.

## SILCOX PITCHES WELL BUT GRAFTON WINS CLOSE GAME.

Cokers' New Twirler Comes Out Second Best in Battle With Cross, Yet Pitched Best Ball.

Clarkburg	1	3	.250

Games Tomorrow.  
Connellsville at Clarkburg.  
Uniontown at Fairmont.

Tommy Silcox is starting the season with a big handicap on him. He has earned the reputation of being a hard luck pitcher and that is a name that sticks in spite of everything. Tommy pitched the opening game at Fairmont and lost it because the team behind him didn't play the right kind of ball. He went in against Grafton yesterday and lost again although he did the best of Cross in a twirlers' battle.

Grafton bunched hits in the fourth and fifth innings, making a trio of runs in each, and winning the game, 8 to 4. The Cokers did all the heavy hitting and Chip Francis was a particularly shining star, getting a triple and a double. Meyers also got a triple. The game was sensational from start to finish.

Manager Swenson broke into the game for the first time this season by batting for Silcox in the ninth. The veteran failed to connect. "Connellville plays in Clarkburg today and tomorrow. Klinger cannot win tomorrow, then turn up this afternoon." The score:

Connellville	R	H	E
Gillingham	0	0	1
Summers	1	1	2
Meyers	0	2	0
Francis	0	1	0
Francis	0	2	0
Tidwell	1	2	0

Baseball Notes.  
Judging from the way scores which emanate from West Virginia the scores down that way are very much bush. The Fairmont Times does not even print the final score for each game while the papers which come out from Grafton were very enthusiastic. One paper had Summers making four hits and the team 15, while the Pittsburg papers had three for Summers and 12 for the team. In the Pittsburg box scores there was no mention of (take-outs, bases on balls and other valued information the summary was conveyed to supply.

Leaving out the times at that reminds me of Steve Beatty, who was official scorer at Scottdale. Steve kept the scores but under his hat as long as he wasn't paid. Needless to say they are still under the lid. Pay me the official scorer is a habit some clubs never had.

It begins to look as though the Cokers have at last secured a team that can hit. This would rather have a heavy hitting team that couldn't field peanuts than an aggregation that could play 27 errorless games in succession and was unable to pound the pill over a 19th-century Mavhe "House." Abe Granger's cures will not be so satisfying to this aggregation.

It is almost a safe bet that the bankruptcy courts will be busy by the time the final Uniontown-Connellville series is disposed of. Whether the affair will continue its activities to Uniontown or not busy down this way remains to be seen.

In the first three games the Cokers scored 9 runs and 27 hits, which is hanging out a few. Meyers leads with five, all singles. Francis has made five bases out of a pair of hits, as one was a home run. Summers got three sacks, making a total of four bases, while (Pete) the made three sacks on two singles. Francis' four hits were all singles. All the players have scored a run except Tidwell, Cannon and Silcox.

Manager Photo, the Beatty boy, will not play ball this season. He started out with M. Montgomery's Erie team but his ankle gave way and he quit. Photo will remain in Pittsburg for some time. He broke his ankle while

When Mme. Lillian Nordica sailed for Europe she announced that next year would be her last on the stage and that within a year she would be the bride of George W. It has been rumored frequently in the last two or three years that Mr. Young and the prima donna were engaged, but neither has ever before confirmed the report. Mr. Young possesses a large fortune and is a member of many clubs in New York. He was at the pier when the vessel sailed, but smilingly referred interviewers to Mme. ## Wright-Metzler Co.

We are not asking a favor when we ask you to witness this Chi-Namel demonstration in our store May 7 to 11.

WE'RE extending one. It will be your opportunity to learn from the manufacturers' expert many things in regard to the treatment of interior

woodwork, furniture, floors, etc., and the many ways in which the Chi-Namel graining and varnishing process may be made to serve the housewife. It will be worth many dollars to you. Chi-Namel is a most remarkable varnish. The average varnish
